

CFS Gold

Sustaining Development

CFS Gold membership enables schools and early years settings to continue their Elklan journey in developing support for children's language and communication.

For the 3 years after gaining *CFS* status until *CFS* status is renewed, Elklan's new *CFS Gold membership* provides schools and settings with:

- ✓ Mentor Meetings with a senior Elklan Tutor at which LCPs can discuss and share ideas/experiences around speech, language, and communication issues. (Please note: Advice concerning the management of individual children will not be discussed but general principles will). Mentor Meetings will usually be virtual in groups of up to ten for 1 hour. These are open to the setting LCPs.
- ✓ Workshops delivered by senior Elklan Tutors. A menu will be available and, subject to capacity, all Level 3 Elklan trained staff and the LCPs will be able to choose workshops most appropriate to them. The LCPs are advised to attend 2 x workshops a year to support their setting's CFS renewal.
- ✓ A termly newsletter, sharing good practice and providing support in developing schools and settings.
- ✓ 15% Discounts on Elklan courses and resources and complementary access to Sound Builders (a set of programmes to support children aged four years and older whose speech sound system is delayed).
- ✓ A simplified and shortened CFS renewal process for CFS Gold settings.

Schools and settings will be invited to contribute to the *CFS Gold* Network through sharing their own experiences, including short video clips (after gaining necessary permissions).

Cost (per setting)	
CFS Gold Membership (for 3 years*), including CFS renewal**	£200.00 plus VAT per annum
Small EY or Primary Setting: CFS Gold Membership (for 3 years*), including CFS renewal**	£150.00 plus VAT per annum
Childminders	£75.00 plus VAT per annum

* If CFS Gold Membership is taken out less than 3 years after a setting has completed CFS, the cost of the renewal will be £150.00 plus VAT.

** CFS Renewal without Gold Membership is £250.00 plus VAT, where original LCP/s are retained.
